

A Portfolio about Yingfei Li

I am a senior student of Michigan State University. My major is Computer Science Engineering. I love Programming, Coding, technology and Computers. This is a website about myself, my experience, my resume and some projects I have made by myself.

Personas

Lisa Chan

Technical Recruiter at TechSmith

"I want to help college students to find jobs or internships as much as possible."

Age: 28

Location: Okemos, Michigan

Job: Technical Recruiter

Technical skills: moderate (computer and navigation equipment aboard vessel)

About: Willing to help college students to find jobs

The Goals: To view the student's Portfolio and resume and advertise job chances.

Attitude: Want to learn more details about the students as much as possible.

Lisa is a technical recruiter, she expects to find as much as possible details of the student. Hopefully the portfolio can include some existing projects students have done with.

Louis the Recruiter

Strong interests in web design

Diane the Application Developer

Project Manager and interests in application developing
